

INTERNATIONAL TRACK
GLOBALINSA
Bilingual curriculum

This two-year international section is designed for French and international students who wish to embark on a multi-disciplinary study program, with the goal of becoming engineers, managers or executives in an international environment.

Practical information :

- A high school diploma is required to apply
- Certified level English and French : B1
- French as Foreign Language (FLE) courses for international students
- French Summer School starting in August
- Smaller group sizes for tutorials and practicals
- Support from a French INSA student
- Visits to French partner companies

Their first year at INSA Hauts-de-France marks the beginning of this two-year program. From the third year onwards, students will follow the standard engineering curriculum, which is taught in French.

Courses: engineering sciences, fundamental physics, general chemistry, mathematics, computer sciences and technology, humanities, project management, language, culture, communication, multi-media, artificial intelligence, ...

Campus life: sport associations, culture, events, ...

Credits: 30 ECTS per semester

5,500€ fees for the first year
